OPERATIONAL DISCUSSION

Discussion by Jo Ellen Fisher regarding a "Disaster Type" situation. A thank you to the police chiefs who let the daytime people stay who helped assist in answering phone calls due to the major storm system on August 10th.

Discussion on Tornado Sirens on when to turn them on, can we turn the sirens on all at once. IVRD will turn on member sirens when NWS announces a tornado warning for the respected area. Discussion on severe thunderstorm warnings and setting off the siren. More information needs to be obtained before deciding IVRD should set them off on their own.

Discussed notification for storm mode.

Discussed we will go to storm mode on condition red weather status. Storm Mode will require all IVRD member agencies to establish one point of contact for Storm Mode.

- TC's will make a CAD for each town to put the non-emergent calls in and let the IC of that town send the appropriate units when available.
- Members will try to work on operational channels to cut down on noise in dispatch.
- IVRD will still page all emergent calls.

Transfers – Departments can still open and close cads for transfers. They just keep track of their own times.

Peru Fire updated box cards for rural structure fires, these will go into effect in November.
