EXECUTIVE DIRECTOR REPORT

Executive Director Miller-Guss provided the following report:

- **ProQA** – Live as of May 8th; support was provided May 8th – 10th. The support team complemented the TC's on their demeanor. The support team reported Brownlee's system was one of the best they have encountered. Brownlee worked very hard to implement the system. TC's are getting used to the program, with the police protocol being the most extensive.
- **Dispatch Review Committee** – Meeting later this week.
- **Police Priority Dispatch Orientation** – Everything went very well with many questions and feedback.
- **MDC's** – Still a challenge; Doug Bernabei reported it is mainly a setting issue within the MDC itself.
- **Employment** –Katelyn Stewart resigned, with Katelyn Baxter accepting the full-time position. Part-time applications will be accepted.
- **State Esinet** – This is the transition to Next Gen 911. JETSB hired a consultant to help with the transition. There may be a cost to IVRD. The transition presents a challenge with using Oglesby as the backup. Brandon is working on the logistics with Ottawa dispatch to have a backup workstation at Ottawa as well as a backup workstation at IVRD for Ottawa. Ottawa also already serves as a backup to IVRD.
- **Accounting Services** – IVRD accounting services moved to Abacus as of May 1st.

- **Aipohnes** – Working with Peru Chief on Peru integration.
- **EMS System** – IVRD was a member of the IL Valley EMS System that is no longer with the closing of St. Margaret's. IVRD will be joining the OSF at St. Elizabeth EMS System in Ottawa. Miller-Guss met with the EMS System coordinator to review IVRD's EMD program since it varies from other centers in their system. They are very supportive and complimentary of the system and IVRD.

Jason Curran inquired about the money spent towards making Oglesby the backup location, and what needs to be replaced. Executive Director Miller-Guss reported on a recommendation that everything be replaced because of the transition to the state Esinet system, which is different than the current system. The backend is different, the current platform is different from Next Gen, which is used by the state. Doug Bernabei reported the radio and phone systems are going to Ottawa. IVRD is relying on the state for recommendations on what is needed. Esinet will be IP based. Jason Curran noted he wanted to make sure the monies spent to make Oglesby the backup were being utilized. Executive Director Miller-Guss stated he will stay on top of the transition with the consultant and provide updates to the board.

Jeff Grove inquired the reason for Katelyn Stewart's resignation and if there had been an exit interview. Executive Director Miller-Guss reported Katelyn Stewart accepted a full-time position with the National Guard and had sent a nice email complementing the IVRD organization. Executive Director Miller-Guss reported she did very well as a TC.

Doug Bernabei reported Executive Director Miller-Guss worked both Sunday and Monday of Memorial Day weekend to have a third person in the office.
